LOGO

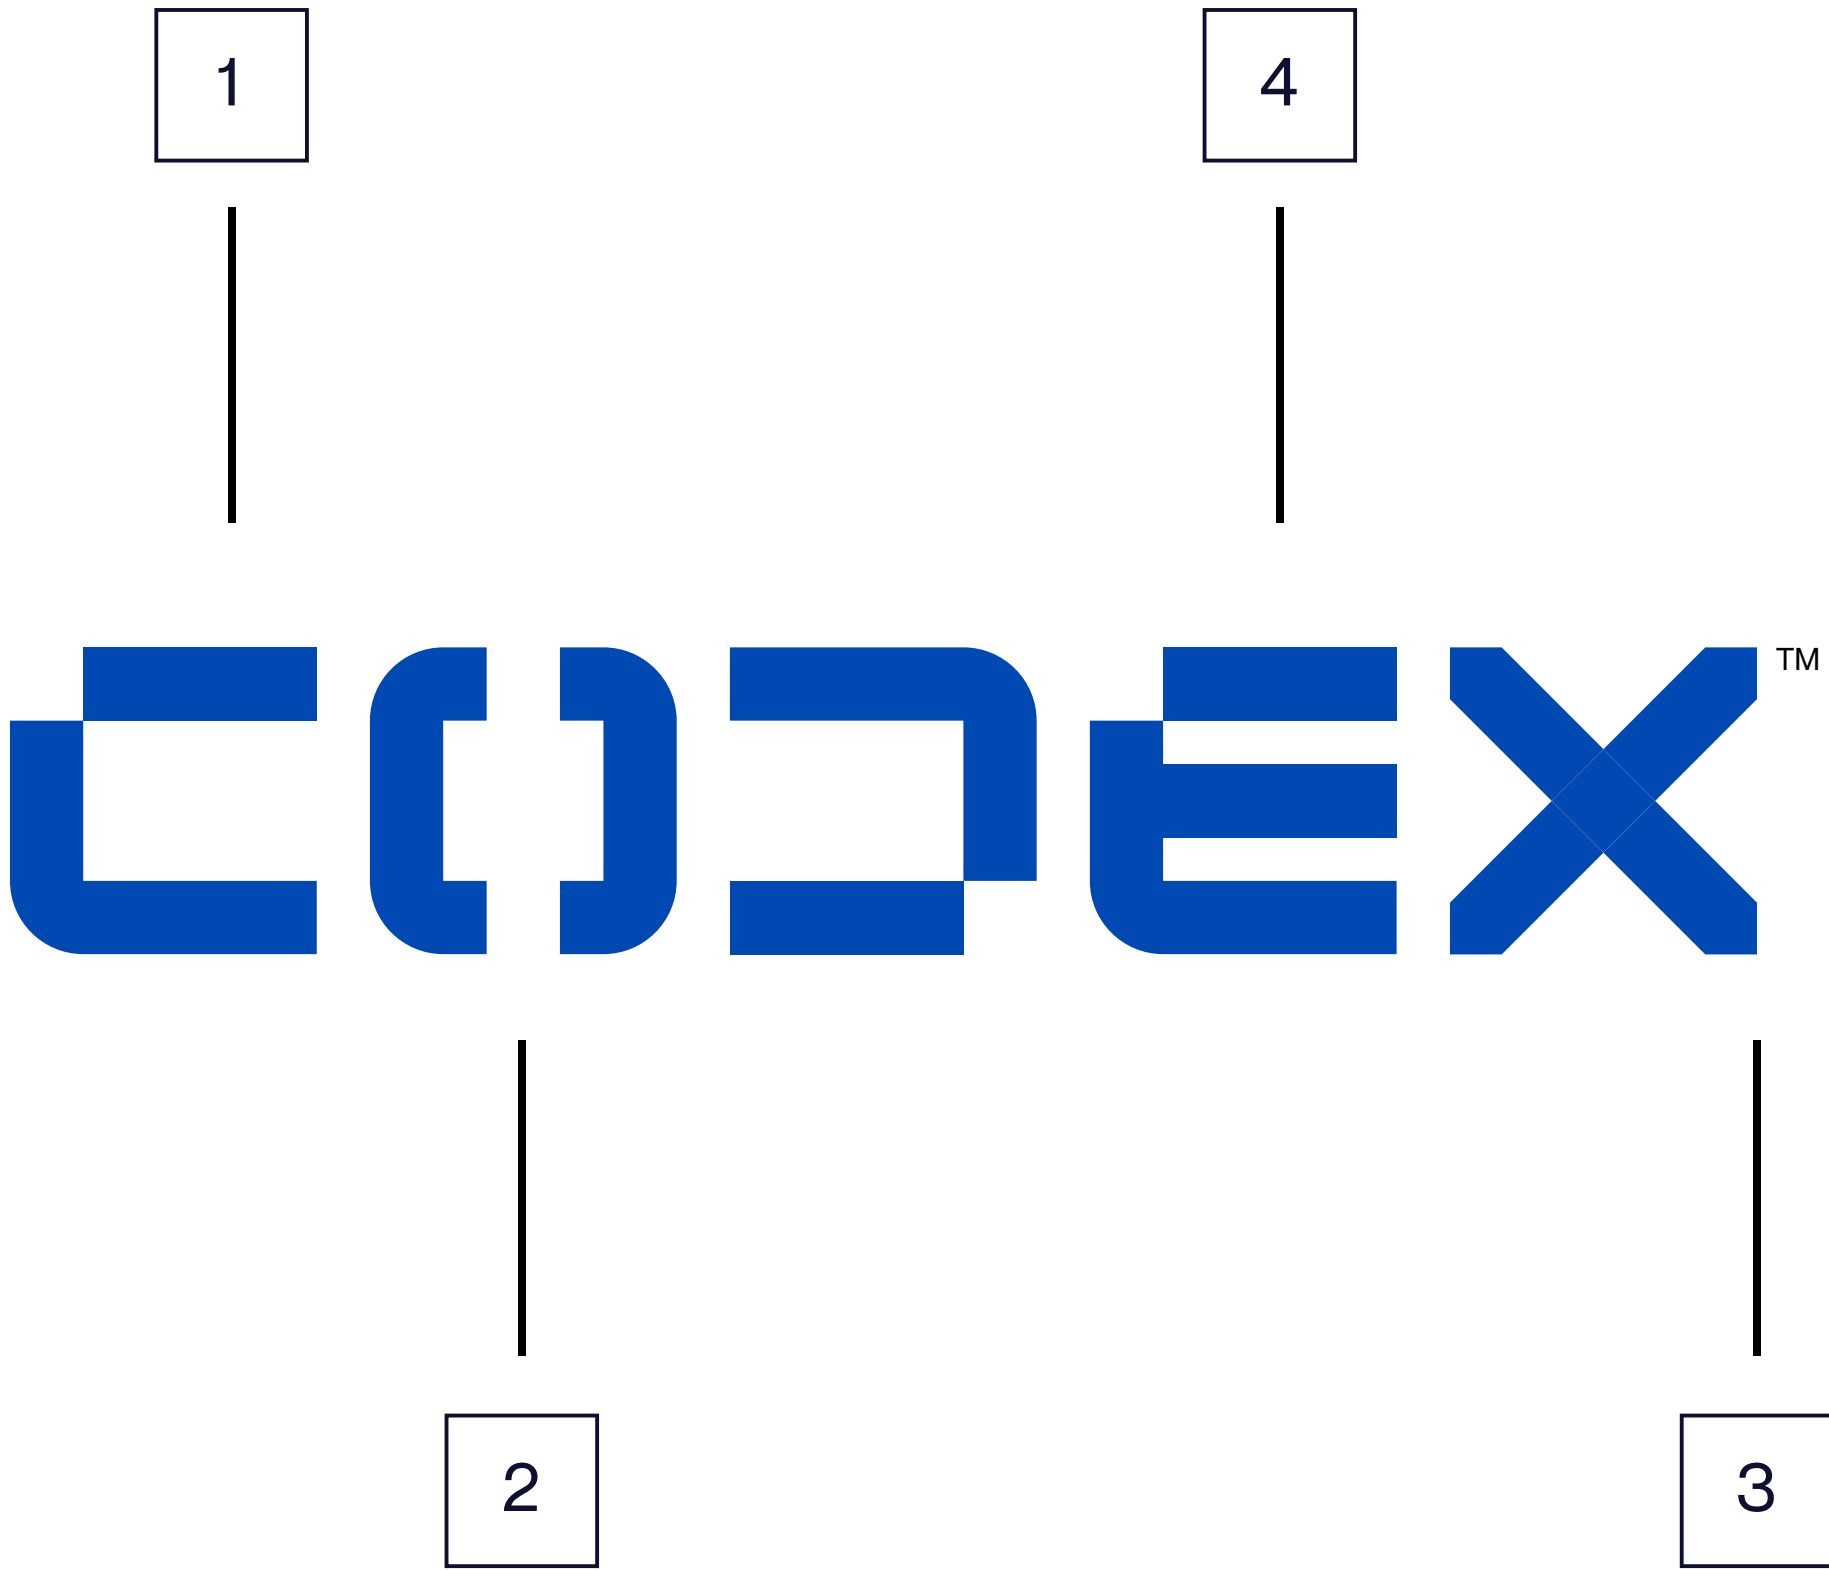

The logo

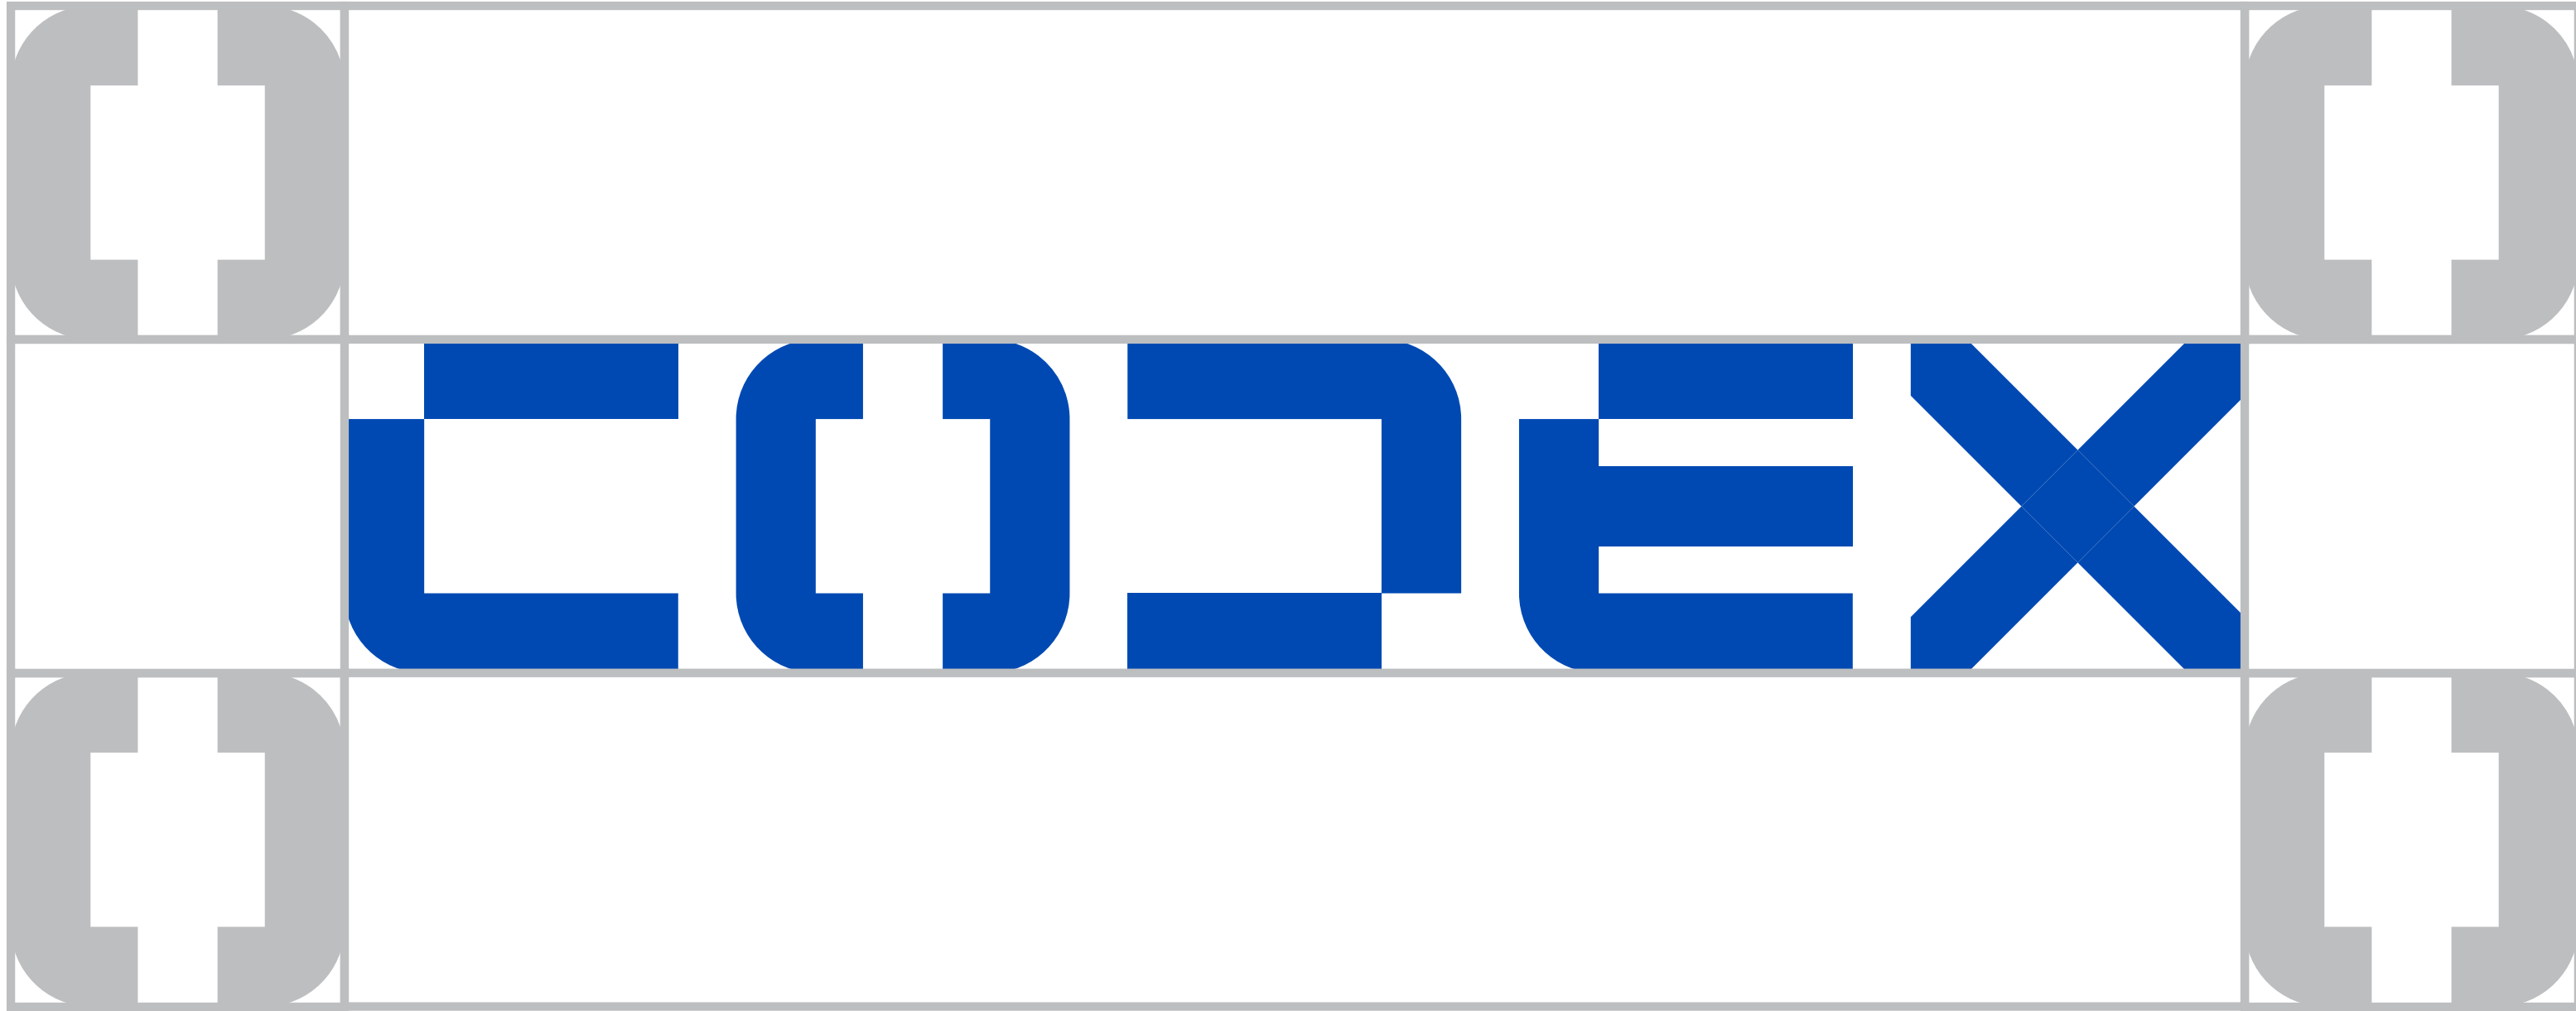

1. Modified Letterform for Identity
The letter "C" is uniquely altered to serve as both a recognizable icon and a standalone symbol for branding versatility.

2. Coding Symbol Integration
The design subtly incorporates the "{}" brackets, referencing programming syntax and reinforcing the tech-oriented theme.

3. Bold Typeface for Impact
A bold weight is used to ensure strong readability and visual authority, especially in digital and print applications.

4. Geometric Structure
The font style is blocky and geometric, giving the logo a modern, structured feel that aligns with technology and innovation.
